

Release 1 - 2009 News !

DS100E / DS150E / DS350E / DS500E / DS550E / DS800E

We proudly introduce the
Release 1 - 2009 vehicle database update.

Car database with greater depth and many new functionalities!

14 brands in total have been updated with new models, model-year and more functionalities, from the year model 1995 up to 2009.

Updated brands in this release are **Audi, BMW, FIAT, Ford, Hyundai, Land Rover, Mazda, Mercedes, Mini, Nissan, Renault, Suzuki, Volkswagen** and **Volvo**.

There are **many new functionalities** for service on several brands including **electronic parking brake** on **Audi, Volkswagen** and new **Volvo** models.

We have also added **coding of daytime running lights** on many **Volkswagen** models. More information can be found in the application lists for your product.

See below for some of the highlights in Release 1 – 2009.

Audi

A2

Updated (01-04) with more diagnostic functions for Engine, ABS, climate control, Airbag, Climate control and parking assistance.

A3 (03-)

Updated (03-08) with more diagnostic functions for engine and trailer module. A3 is also updated for coverage of 2009 year models with more than 30 different new engines and more than 30 new chassis systems.

A4 (01-05)

Updated (05-08) with more diagnostic functions for engine.

A4 (08-)

Updated (08-09) with diagnostics for engine and several chassis systems.

A5

Updated (08-09) with diagnostics for engine and several chassis systems.

A6 (05-)

Updated (08-09) with diagnostics for engine and several chassis systems.

Release 1 - 2009 News !

DS100E / DS150E / DS350E / DS500E / DS550E / DS800E

Q5

Updated 2009 with diagnostics for engine and several chassis systems.

Q7

Updated 2008 with diagnostics for engine and several chassis systems.

TT (07-)

Updated 2009 with diagnostics for engine.

BMW

1-series (E87)

Updated (07-08) with diagnostics for engine and several chassis systems.

3-series (E36)

Updated (96-99) with diagnostics for 1.8L engine.

3-series (E46)

Updated (01-06) for coverage of more variants of lights center LSZ. 04-06 2.0L diesel and petrol engine added.

3-series (E90/91)

Updated (06-08) with diagnostics for engine and several chassis systems.

5-series (E60/61)

Updated (04-08) with diagnostics for engine and several chassis systems.

7-series (E38)

Updated (96-01) with diagnostics for engine.

7-series (E65/66)

Updated (02-05) with diagnostics for engine.

8-series (E31)

Updated (95-01) with diagnostics for engine.

X3 (E83)

Updated (04-08) with diagnostics for engine and several chassis systems.

X5 (E53)

Updated (01-08) with diagnostics for engine and several chassis systems.

Z3 (E36)

Updated (96-99) with diagnostics for engine.

FIAT

Doblo

Updated (07-09) with diagnostics for 1.3L diesel engines, ABS, Airbag, Instrument and service reset function for diesel engines with particle filter.

Ducato

Updated (06-08) with diagnostics for 2.3 and 3.0L diesel engines ABS, Airbag, Instrument, Body computer Marelli 6 and Service reset function for diesel engines with particle filter.

Release 1 - 2009 News !

DS100E / DS150E / DS350E / DS500E / DS550E / DS800E

Florino

Updated 2008 with diagnostics for 1.3L diesel engine, Airbag and Service reset function for diesel engines with particle filter.

Scudo

Updated (07-08) with diagnostics for 2.0L diesel engines, ABS, ESP, Airbag, Instrument, Valeo Body computer, Power steering, Valeo parking control unit and Service reset function for diesel engines with particle filter.

Stilo

Updated (01-04) with diagnostics for 2.4L petrol engine and Gearbox.

Strada

Updated (06-08) with diagnostics for 1.3L diesel engine, ABS, Airbag Instrument, Body Computer Marelli 2 and Service reset function for diesel engines with particle filter.

Ford

Transit (06-08)

Updated with Service reset function.

Mondeo (07-08)

Updated with Service reset function.

Galaxy (06-08)

Updated with Service reset function.

S-max (06-08)

Updated with Service reset function.

Hyundai

Accent (06-)

Updated (06-07) with diagnostics for power steering.

Coupe (02-06)

Updated (02-06) with diagnostics for TCS.

Elantra (01-03)

Updated (01-03) with diagnostics for TCS.

Elantra (04-06)

Updated (04-06) with diagnostics for TCS and ABS.

Getz (02-05)

Updated (02-05) with diagnostics for power steering and for the 2008 year models updated with engine and chassis system.

H1 (07-)

Updated (07-08) with diagnostics for diesel engine, ABS, Immobilizer and Power steering.

I10 (2008-)

Updated (07-08) with diagnostics for petrol engine, ABS, Immobilizer, Airbag and Power steering.

I30 (2007-)

Updated (07-08) with diagnostics for diesel and petrol engines, ABS, Climate control, Immobilizer, Airbag, Power steering and TPMS.

Release 1 - 2009 News !

DS100E / DS150E / DS350E / DS500E / DS550E / DS800E

Matrix (02-07)

Updated (03-07) with diagnostics for petrol engine and TCS.

Land Rover

Freelander (97-06)

Updated (02-06) with diagnostics for 2.0L diesel engine, SRS, ABS with bleeding functionality (03-06), Gearbox (03-06) and extra heater for the 2003 year models.

Discovery 2 (98-04)

Updated (02-04) with diagnostics for two 2.5L diesel engines, ABS with bleeding functionality and ABS. Diagnostics added (00-04) for Gearbox, BCU and Transmission, Gauges, Heated Window, External lightning, Security, Warning and sounders, Wash and Wipes and Windows and sun roof.

Discovery 3 (04-)

2.7 L diesel engine updated (04-08) for data lists and fault code description, ABS is updated with activation and bleeding functionality, Body module, Auto gearbox with reset of adaptations, Transfer case (Driveline), Instrument, Lighting, Steering.

Freelander 2 (07-)

Updated (07-08) with diagnostics for 2.2L diesel engine, ABS, Body module, Instrument and SRS.

New Range Rover (02-)

Updated (02-04) with diagnostics for V8/44 8S2 diesel engine with function for reset of adaptations.

Mazda

Mazda 6

Updated for coverage of 2008 year models.

Mercedes

R-Class (W251)

Updated (05-07) with diagnostics for more engines and several chassis systems.

SLK (R171)

Updated (04-08) with diagnostics for more engines and for some chassis systems.

CL (W215)

Updated (05-07) with diagnostics for more engines and several chassis systems.

Vaneo (414)

Updated (02-06) with diagnostics for more engines and several chassis systems.

E-Class (210)

Updated (95-02) with diagnostics for EGS.

Vito / Viano (638)

Updated (96-99) with diagnostics for more engines and for some chassis systems.

Release 1 - 2009 News !

DS100E / DS150E / DS350E / DS500E / DS550E / DS800E

GLK (204)

Updated (08-09) with diagnostics for more engines and several chassis systems.

E Class (211)

Updated (05-07) with diagnostics for more engines and 7G-Tronic.

M-Class (W164)

Updated (06-08) with diagnostics for 7G-Tronic.

GL-Class (X164)

Updated (06-08) with diagnostics for 7G-Tronic.

C-Class (204)

Updated (07-09) with diagnostics for more engines and several chassis systems.

MINI

Coupe (R56)

Updated (07-08) with diagnostics for 1.6L diesel and petrol engines, ABS, SRS, Immobilizer, Central body FRM and JBE, Power steering and Service reset function.

Clubman (R55)

Updated (07-08) with diagnostics for 1.6L diesel and petrol engines, ABS, SRS, Immobilizer, Central body FRM and JBE, Power steering and Service reset function.

One (R50)

Updated (03-04) with diagnostics for engine and several chassis systems.

Cooper S (R53)

Updated (03-04) with diagnostics for engine and several chassis systems.

Renault

Clio III

Updated (05-08) for engine and ABS.

Espace IV

Updated (03-08) with injector coding function for several diesel engines and system Parking assistance added.

Kangoo II

Updated 2008 with diagnostics for engine and UPC (Switching and protection unit).

Laguna II

Updated functionality for diesel engines with injector coding function.

Master

Updated (01-08) functionality for diesel engines with injector coding function.

Megane II

Updated (03-08) with functionality for diesel engines with injector coding function, system Climate control (07-08). UPC is added for 2008 year model.

Modus

Updated (07-08) with diagnostics for power steering.

Release 1 - 2009 News !

DS100E / DS150E / DS350E / DS500E / DS550E / DS800E

Scenic II

Updated (03-08) with functionality for diesel engines with injector coding function, system Climate control (07-08). UPC is added for 2008 year model.

Traffic II

Updated (01-08) functionality for diesel engines with injector coding function, diagnostics for SRS. System UPC is added for (04-08) year models.

Suzuki

SX4 (06-)

Updated (06-08) with diagnostics for 1.9L diesel engine, Airbag, Central ECU: BCM, Immobilizer, ABS with sensor calibration, Climate Control and 4WD electronics.

Grand Vitara (06-)

Updated (06-08) with diagnostics for 1.9L diesel engine with function for injector coding. Diagnostics for 1.6, 2.0 L petrol engines, Transmission, ABS with sensor calibration, Airbag, 4X4 electronics, Immobilizer, Climate Control, Central ECU: BCM and diagnostics for Heater.

Grand Vitara XL7 (99-05)

Updated (02-05) with diagnostics for 2.7 L petrol engines, ABS, Central ECU: BCM, Climate Control and Airbag.

Alto (98-03)

Updated (01-03) with diagnostics for 1.0 and 1.1 L petrol engines.

Ignis (03-08)

Updated (03-05) with diagnostics for 1.3L petrol engines, ABS, Airbag and Power steering EPS.

Liana (01-07)

Updated (01-03) with diagnostics for 1.3 and 1.6L petrol engines, ABS and Airbag.

Volkswagen

Caddy III (03-)

Updated for coverage of 2008 year models with diagnostics for engine and several chassis systems.

Fox

Updated for coverage of 2008 year models with diagnostics for engine and several chassis systems.

Golf VI - *The new Golf 2009 model !*

Updated for coverage of the new 2009 year models with diagnostics for engine and function for Transport mode activation/deactivation and Service reset function.

Passat CC - *The new Passat CC 2009 model !*

Updated for coverage of the new 2009 year models with diagnostics for engine and several chassis systems. Example of functionalities: Service reset, Transport mode, Electronic-parking brake.

Passat V (05-)

Updated for coverage of 2008 year models with diagnostics for engine and several chassis systems.

Release 1 - 2009 News !

DS100E / DS150E / DS350E / DS500E / DS550E / DS800E

Polo IV (05-)

Updated for coverage of 2008 year models with diagnostics for engine and several chassis systems.

Scirocco (09-) - The new Scirocco 2009 model !

Updated for coverage of the new 2009 year models with diagnostics for engine and function for Transport mode activation/deactivation and Service reset function.

T5 Multivan

Updated for coverage of 2008 year models with diagnostics for engine and several chassis systems.

T5 Transporter

Updated for coverage of 2008 year models with diagnostics for engine and several chassis systems.

Tiguan

Updated for coverage of (08-09) year models with diagnostics for engine and several chassis systems, with many adjustment and coding functions.

Touareg (07-)

Updated for coverage of 2008 year models with diagnostics for engine and several chassis systems.

Touran

Updated for coverage of (08-09) year models with diagnostics for engine and several chassis systems.

Nissan

Kubistar X76

Updated (04-08) with injector coding function for 1.5L diesel engines, ABS updated with bleeding function.

X-Trail T30 (01-07)

Updated (01-07) with diagnostics for 2.2L diesel engines with injector coding function.

Volvo

V50

Updated 07 with diagnostics for 1.6L diesel engine, ADM diagnostics for diesel additive and CPM Combustion heater.

S60

REM (Rear Electronic Module) updates for 2005 year models with function to read out alarm causes and programming tank cap locking delay. CEM (Central Electronic Module) updates for 2005 year models with several programming functions.

V70 (00-07)

Updated 06 with diagnostics for 2.4T and 2.4T2 diesel engines.

REM (Rear Electronic Module) updates for 2005 year models with function to read out alarm causes and programming tank cap locking delay. CEM (Central Electronic Module) updates for 2005 year models with several programming functions.

Release 1 - 2009 News !

DS100E / DS150E / DS350E / DS500E / DS550E / DS800E

V70 (08-)

Updated (08-09) with diagnostics for 10 different new diesel and petrol engines, including flexifuel engine with function to program ethanol/petrol mixture and do adaptation of throttle house, erase adaptation values. Diagnostics added for SAS, Immobilizer, SRS, DDM (Driver Door Module), with initiation function for windows. PBM (Park brake module) with functionality for activation and deactivation service mode (must to do when changing brake pads), HCM (Headlamp control module), PDM (Passenger Door Module) with initiation function for windows, PAM (Parking assistance module), POT (Tailgate control module), CCM (Climate control module), TCM, BCM (Brake control module). CEM (Central Electronic Module) is updated with function to read out alarm causes, ICM (Instrument) and SLR service reset functionality.

XC70 (-07)

Updated 06 with diagnostics for 2.4T diesel engine. REM (Rear Electronic Module) is updated with function to read out alarm causes and programming tank cap locking delay. CEM (Central Electronic Module) updates for (05-06) models with several programming functions.

XC70 (08-)

2009 year models are updated with 3.0L and 3.2 L petrol engines and 2.4T4 and 2.4T5 diesel engines. 2008 year models are updated with diagnostics for SUM (Suspension), HLDF (High Level Display Front), and PAC (Parking Assist Camera). CEM (Central Electronic Module) is updated with function to read out alarm causes and PBM (Park Brake Module) with functionality for activation and deactivation service mode (this must be done when changing brake pads).

S80 (99-06)

New functionality added to REM (Rear Electronic Module). Updates for (05-06) year models with function to read out alarm causes and programming tank cap locking delay. CEM (Central Electronic Module) updates for (05-06) models with several programming functions.

S80 (07-)

Updated up to 2009 year models with diagnostics for 14 different new diesel and petrol engines. Updates for the D5244T5 07-08 with function for reset of counter for particle filter, force cleaning of particle filter and to perform adaptation for particle filter sensor, throttle house, Lambda sensor, Air mass meter and several other adaptations, which have to be carried out when parts are renewed. Diagnostics are also added for 07 and 09 models for SRS, DIM, BCM, Immobilizer, TCM, PAM, PSM, HCM, ICM and KVM, with advanced functionality for 2009 models for control of the communication between receiver and remote control and antenna check. CEM (07-09) has a new functionality for read out of alarm causes and PBM (Park Brake Module), with functionality for activation and deactivation of service mode (this must be done when changing brake pads). Other new systems for (07-08) models are CPM, TRM, SUM, HLDF, DDM (Driver Door Module) for the 2009-year models with initiation function for windows, PDM (Passenger Door Module) with initiation function for windows. SLR Service reset is added up to 2009 models.

XC90

Updated (08-09) with diagnostics for 2.4T diesel engine, TCM. For 2005 year models a new functionality is added to REM (Rear Electronic Module), with function to read out alarm causes and programming tank cap locking delay. CEM (Central Electronic Module) with several programming functions.
