

DS100E & DS150E Software Update Download Instructions

In order to download the latest DS100E and DS150E from the Internet please follow the instructions below:

Go to the following web page:

<http://europe.delphi-dso.com/UK/downloads.html>

To download the files from the website click on the links immediately under 'DS100 current version' or 'DS150E/DS350E/DS500E/DS800E Basic Package Current Version'.

If you are updating your DS100E software then please ensure that you select the correct version of that software for your preferred method of update. If you update by writing to a SD card, select the 'SD Card Copy' version. If you update by using the ActiveSync cable then select the 'ActiveSync' version

Use the following passwords and usernames when prompted.

DS100E
