

DS100E & DS150E Software Update Download Instructions

In order to download the latest DS100E and DS150E from the Internet please follow the instructions below:

Go to the following web page:

<http://europe.delphi-dso.com/UK/downloads.html>

To download the files from the website click on the appropriate link to the level of software to which you subscribe. The order of downloads on the website is:

- Car diagnostic software for the DS150E/DS350E
- Car diagnostic software for the DS100E
- HD diagnostic software for the DS150E/DS350E
- HD diagnostic software for the DS100E

If you are updating your DS100E software then please ensure that you select the correct version of that software for your preferred method of update. If you update by writing to a SD card, select the 'SD Card Copy' version. If you update by using the ActiveSync cable then select the 'ActiveSync' version

Use the following passwords and usernames when prompted.
